**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 48-53,60-61 and 63 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kain (6,554,358) in view of Ichinokawa (5,265,610). Kain discloses the use of a child seat (22) for seating a child with a vehicle comprising a base (10); a backrest (figure 2); a connection mechanism (24,27) that connects the base and the backrest and that includes a plurality of hooks; wherein the child seat is configured for placement on a seat of a vehicle; and wherein the child seat has a belt path (89) configured to receive an located relative to the child a lap belt of a restraint system of the vehicle. Kain shows the use of all the claimed invention but fails to show the use of a plurality of hooks engaged with a bar; wherein at least one of the hooks opposes the other hooks. Ichinokawa teaches the use of a plurality of hooks (15,16) engaged with a bar (21); wherein at least one of the hooks opposes the other hooks. It would have been obvious to one of ordinary skill in the art at the time of invention to modify the seat with a plurality of hooks wherein one of the hooks opposes the other as taught by Ichinokawa, in order to remove the backrest from the base faster and more convenient for the occupant.

### ***Response to Arguments***

Applicant's arguments with respect to claims 48-53,60-61 and 63 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
